Hiring Team

1Password

**Subject:** Application for **Developer Intern - Central Account Hub - Summer 2025**

Dear Hiring Team,

I'm writing to express my interest in the Android and iOS Mobile Developer Intern position at 1Password for the Summer 2025 term. As a software developer with 2+ years of experience building scalable and user-centric Android applications using Kotlin and Jetpack Compose, I am excited about the opportunity to contribute to 1Password's mission of creating a safer, simpler digital future for everyone.

In my previous roles, I've had the chance to work closely with product and design teams to build high-quality, customer-facing mobile applications. I'm skilled at translating user stories into technical tasks, ensuring features are delivered on time while maintaining a focus on performance and security. Working collaboratively with cross-functional teams, I've consistently prioritized creating applications that meet both business goals and user needs, resulting in intuitive, polished products.

I'm particularly drawn to 1Password's commitment to security, simplicity, and user experience, all of which align with my own values as a developer. I have hands-on experience integrating third-party APIs and creating scalable backend solutions, and I'm eager to expand my knowledge of full-stack development in a security-focused environment. I'm excited to learn more about how 1Password handles data security, and I'd love to contribute to building systems that ensure customers' data remains safe and accessible.

In addition to my technical skills, I bring a strong sense of curiosity, collaboration, and a desire to constantly improve. I'm eager to contribute to your team, learn from the talented developers at 1Password, and gain a deeper understanding of how large-scale software systems are developed, tested, and deployed. I believe this internship will provide a unique opportunity for me to grow both personally and professionally, and I look forward to the possibility of contributing to your team's success.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and skills align with the needs of the 1Password team.

Sincerely,

Vraj Shah
