

Dear Hiring Team at TJX,

When I came across the opportunity to join TJX Canada as an Application Development Co-op, I was immediately drawn to the chance to contribute to an organization celebrated for its culture of respect, innovation, and inclusivity. The prospect of applying my technical expertise and problem-solving skills to enhance operational efficiencies through Lean Six Sigma methodologies and Intelligent Automation excites me, as it aligns perfectly with my academic and professional journey.

As a master's student in Applied Computer Science at Dalhousie University, I have cultivated a strong foundation in process optimization, software development, and data-driven decision-making. My ability to work with Power Platform tools, coupled with advanced Excel expertise, has allowed me to create dynamic dashboards and automation solutions, saving valuable time and resources.

In addition to my technical skills, my experience coordinating projects has honed my ability to analyse complex challenges, gather actionable insights, and present them effectively to diverse stakeholders. These skills directly align with TJX Canada's emphasis on leveraging Agile methodologies and teamwork to achieve impactful results.

What excites me most about this role is the opportunity to support TJX Canada's Intelligent Automation journey. I take pride in being a proactive learner, eager to explore innovative tools and strategies that drive measurable improvements. The chance to contribute to projects that have a meaningful impact resonates deeply with my desire to make a difference, not just in my work but in the broader community.

I am confident that my technical acumen, collaborative mindset, and passion for continuous improvement make me a strong fit for this position. I would be thrilled to bring my expertise and enthusiasm to TJX Canada's team and contribute to its mission of delivering operational excellence.

Thank you for considering my application. I welcome the opportunity to discuss how my skills and experiences align with your team's goals. Please feel free to contact me at vr597381@dal.ca to schedule an interview.

Looking forward to the possibility of joining TJX Canada and contributing to its inspiring culture and innovative initiatives.

Best regards,

Vraj Shah
