Hiring Team

MNP

**Subject:** Application for **Intern, Developer**

Dear Hiring Team,

I am eager to apply for the Intern, Developer position at MNP. With a passion for software development and a strong foundation in building scalable applications, I am excited about the opportunity to contribute to your technology development team.

Currently pursuing my Master of Applied Computer Science at Dalhousie University, I have two years of professional experience developing native Android and iOS applications using Kotlin and Swift. My experience extends to Agile methodologies, Git version control, and cloud-based solutions. I have also worked with front-end technologies and am familiar with Angular and React, making me well-equipped to contribute to full-stack development initiatives.

In my previous roles, I have actively participated in scrums, collaborated on feature planning, and independently handled small projects, all of which align with MNP's expectations. Additionally, my experience with DevOps tools, including Azure DevOps, strengthens my ability to track and manage work effectively within an Agile environment.

MNP's commitment to innovation and digital transformation resonates with my aspirations as a developer. I am particularly excited about the opportunity to work on impactful projects that enhance business solutions through technology.

I welcome the opportunity to discuss how my skills and experience align with this role. Thank you for your time and consideration. I look forward to the possibility of contributing to your team.

Sincerely,

Vraj Shah
