Hiring Team

Guidewire

Subject: Application for **Consultant Developer Intern**

Dear Hiring Team,

I am writing to express my interest in the **Consultant Developer Intern** position at Guidewire. With a background in software development, particularly in backend services, API design, and cloud-based applications, along with experience in ReactJS and a strong foundation in algorithmic problem-solving, I am excited about the opportunity to contribute to your team.

During my time as a Software Engineer at Simform Solutions, I developed and optimized RESTful APIs using technologies such as Spring Boot (Java/Kotlin) and worked in Agile teams to deliver scalable, high-performance applications. My experience in leveraging **Test-Driven Development (TDD)** has enabled me to write clean, maintainable code while ensuring high reliability. Additionally, I implemented CI/CD pipelines, improving deployment speed by 50% and significantly reducing manual intervention, which aligns with your emphasis on efficient, scalable solutions.

As a graduate student pursuing a Master of Applied Computer Science at Dalhousie University, I am actively learning advanced concepts in machine learning, distributed systems, and cloud technologies. This academic pursuit, coupled with my practical work experience, fuels my passion for continuous learning and growth in technology. I thrive in environments that encourage collaboration, and my experience working with cross-functional teams has sharpened my ability to communicate technical solutions effectively to both engineers and stakeholders.

I am particularly drawn to Guidewire's commitment to solving tough problems in the insurance industry. Your focus on innovation and your collaborative environment excites me, and I am confident that my skills and curiosity would enable me to contribute meaningfully to your team. I am eager to bring my expertise in **ReactJS, Spring Boot, and cloud-based architecture** to Guidewire, while continuing to learn and grow as a software engineer.

Thank you for considering my application. I look forward to the possibility of contributing to Guidewire's mission and collaborating with your talented team. Please feel free to contact me.

Sincerely,
Vraj Shah
