Hiring Team

Arcadis

Subject: Application for **Android Developer Intern**

Dear Hiring Team,

I am thrilled to apply for the Android Developer Intern position at Arcadis, where I can combine my passion for mobile development with my enthusiasm for sustainability and innovative solutions. Currently pursuing a Master of Applied Computer Science at Dalhousie University, I have developed a strong foundation in Android app development, particularly with Kotlin and Java, and am eager to contribute my skills to your team.

In my previous role as a Software Engineer at Simform Solutions, I played a key role in building and maintaining native Android applications. I improved app performance by 40% through memory optimization techniques and enhanced API response times by 30% through better JSON parsing and caching strategies. I also contributed to improving the scalability of projects by implementing MVVM and Clean Architecture, ensuring faster onboarding for new developers and smoother feature rollouts. My experience working with Firebase Crashlytics, Retrofit, and OkHttp has enabled me to create stable and high-performing applications, which I believe would be valuable for developing impactful traffic or transit-related applications at Arcadis.

What excites me most about the opportunity at Arcadis is your commitment to creating sustainable solutions, and I am eager to contribute to your efforts in delivering positive change. I believe that my proactive learning mindset, combined with my technical experience in Android development and my ability to collaborate effectively with cross-functional teams, will allow me to make meaningful contributions to your team. I am enthusiastic about expanding my knowledge and growing within the dynamic and collaborative environment at Arcadis.

I am excited about the possibility of joining your team and contributing to projects that make a difference. I look forward to discussing how my skills and experiences align with your goals and how I can add value to your innovative work. Thank you for considering my application.

Sincerely,

Vraj Shah
