Hiring Team

Cerebras

**Subject:** Application for **DevOps Engineer Intern**

Dear Hiring Team,

I am writing to express my interest in the DevOps Engineer position at Cerebras. As a highly skilled Software Engineer with a background in cloud infrastructure, automation, and CI/CD processes, I am excited about the opportunity to contribute to your team and help further Cerebras' mission to accelerate deep learning and AI innovation. My experience in developing scalable solutions, managing cloud environments, and automating deployment workflows aligns perfectly with the requirements of the role.

At Simform Solutions, I played a key role in automating infrastructure deployments, reducing manual overhead by 40%, and implementing robust CI/CD pipelines with **Jenkins** and **GitLab CI**. I also managed **AWS** cloud services and containerized applications using **Docker** and **Kubernetes**, ensuring seamless deployments and performance at scale. This hands-on experience, combined with my proficiency in **Python** and **shell scripting**, has given me a deep understanding of how to build and maintain scalable systems in a cloud environment, which is exactly what the DevOps team at Cerebras focuses on.

In addition, I have a strong track record of collaborating with cross-functional teams in an **Agile environment**, ensuring timely and high-quality product delivery. My experience with **Linux system administration**, performance monitoring, and debugging, further supports my ability to maintain a stable and secure infrastructure, which I understand is crucial for supporting Cerebras' cutting-edge AI systems.

I am particularly drawn to this role at Cerebras because of your innovative work with the **Wafer Scale Engine** and the opportunity to work at the forefront of AI technology. I believe my skills in cloud automation, CI/CD, and system performance monitoring would make me a valuable asset to your team. I am excited about the chance to contribute to Cerebras' mission of transforming the AI research landscape.

Thank you for considering my application. I look forward to the possibility of discussing how my experience and skills align with Cerebras' goals. Please feel free to contact me to schedule an interview.

Sincerely,

Vraj Shah
