Hiring Team

Nova Scotia Health

Subject: Application for **IM/IT Student Analyst**

Dear Emily Sturgeon,

I am writing to express my interest in the **IM/IT Student Analyst** position at Nova Scotia Health Authority (NSHA) as advertised. With a strong background in **cloud infrastructure**, **backend development**, and **IT project coordination**, coupled with my academic pursuits in **Applied Computer Science** at Dalhousie University, I am excited about the opportunity to contribute to NSHA's **Research and Innovation** team.

During my time as a **Software Engineer at Simform Solutions**, I gained extensive experience working on complex IT projects, collaborating with cross-functional teams, and bridging the gap between **technical and business needs**. I have been deeply involved in developing scalable IT systems, designing cloud architectures, and optimizing backend services, all while ensuring that the solutions aligned with both business objectives and technical requirements. For example, I successfully **led a project to improve IT service request handling**, collaborating with business stakeholders to design and implement a more efficient and automated process.

I am particularly drawn to this role because of its unique blend of **IT solution delivery** and **stakeholder engagement** within the **healthcare innovation** space. I am eager to apply my skills in **business analysis**, **cloud technology**, and **project coordination** to help facilitate the successful implementation of new IT solutions at NSHA. My ability to **communicate effectively**, **negotiate** with vendors, and **work collaboratively** across teams will be valuable in ensuring that NSHA's Research and Innovation initiatives are executed smoothly.

I am excited about the opportunity to contribute to **healthcare innovation** and be part of a team that is shaping the future of technology in healthcare. I look forward to discussing how my experience and skills can contribute to the continued success of your IT initiatives.

Thank you for considering my application. I look forward to the possibility of discussing my qualifications further.

Sincerely,

Vraj Shah
