Hiring Team

Equitable

Subject: Application for Co-op Student – Technology Specialist (Software Solutions)

Dear Equitable Hiring Team,

The opportunity to join Equitable as a Technology Specialist Co-op aligns perfectly with my technical expertise and passion for improving processes through innovative solutions. As a Master of Applied Computer Science student at Dalhousie University with two years of professional experience in software development, I am eager to contribute to your Individual Actuarial Inforce and Policy Tax team while growing within Equitable's collaborative and inclusive environment.

In my previous role, I developed Android and iOS applications natively using Kotlin and Swift, prioritizing efficiency and scalability. This experience honed my skills in problem-solving, process optimization, and meeting tight deadlines. Additionally, I have strong proficiency in SQL, Python, and automation tools like Selenium, which I've used to streamline workflows and improve accuracy. My knowledge of VBA and API integration complements my technical toolkit, allowing me to tackle complex challenges effectively.

I am particularly excited by the prospect of collaborating with the team to develop new software solutions, enhance existing processes, and contribute to robust documentation. My process improvement mindset and attention to detail align with Equitable's focus on efficiency and commitment to high-quality service. Beyond technical skills, I value open communication and teamwork, as demonstrated by my participation in hackathons and design challenges, where I've collaborated with diverse teams to deliver innovative solutions. I look forward to bringing this collaborative spirit to Equitable and contributing to initiatives that support policyholder tax administration and other impactful projects.

The hybrid work arrangement at Equitable reflects a thoughtful approach to work-life balance, and I am motivated by the chance to be part of a workplace that prioritizes employee wellness and professional growth. I am eager to contribute my skills to your team while embracing the learning opportunities offered through the buddy program and EQ Together events.

Thank you for considering my application. I would be delighted to further discuss how my technical expertise and dedication to process improvement can support Equitable's mission. I look forward to the opportunity to contribute to your team's success.

Sincerely,
Vraj Shah
