Dear Hiring team at Butterfield,

I am excited to apply for the Information Technology Summer Internship at Butterfield Group. As a **master's student in Applied Computer Science at Dalhousie University**, I am eager to leverage my academic knowledge and technical skills to contribute to Butterfield's mission of delivering secure and innovative banking solutions.

Your emphasis on designing, building, and supporting software applications aligns with my passion for creating robust and efficient systems. With a strong foundation in programming, software development, and problem-solving, I am confident in my ability to excel in this role.

Here's how I can contribute to Butterfield:

- **Proficiency in Programming**: I have hands-on experience in Java, Kotlin, Swift, Python, and JavaScript, enabling me to develop clean and efficient code that adheres to software development lifecycle (SDLC) standards.

- **Experience with Cloud Platforms**: My coursework and projects have familiarized me with platforms like Microsoft Azure, which would be valuable in supporting Butterfield's digital banking initiatives.

- **Strong Technical and Analytical Skills**: With a solid understanding of Linux systems and computer science fundamentals, I have successfully troubleshot and debugged software systems during my academic projects.

- **Collaborative Problem Solving**: I have worked with business analysts and cross-functional teams to define software requirements and deliver solutions that align with organizational goals.

What excites me most about this opportunity is the chance to contribute to Butterfield's commitment to innovation while improving operational processes and supporting critical business strategies. The opportunity to engage in the design, deployment, and maintenance of Core and Digital Banking applications perfectly aligns with my academic background and career aspirations.

I am eager to bring my technical expertise, adaptability, and dedication to Butterfield's IT team. Thank you for considering my application. I look forward to the possibility of discussing how my skills and experiences can support Butterfield's vision for technology and innovation.

Best regards,
Vraj Shah
