Hiring Team
Ericsson

Subject: Application for **Software Developer Intern**

Dear Hiring Team,

I am thrilled to apply for the Co-op Software Developer position at Ericsson in Montreal. Currently pursuing a Master of Applied Computer Science at Dalhousie University, I am passionate about leveraging innovative technologies to create impactful solutions. Joining Ericsson, a pioneer with over 54,000 patents shaping the future of technology, presents an unparalleled opportunity to contribute to cutting-edge advancements in 5G, enterprise communication, and distributed cloud systems.

In my previous experience as a Software Engineer at Simform Solutions, I honed my skills in developing, testing, and deploying scalable software solutions. My technical expertise includes:

- Proficiency in **Java, JavaScript, and Node.js**, complemented by experience in mobile and app development.

- Knowledge of **Linux, virtualization, and containerization technologies** to design robust multi-node systems.

- An ability to collaborate across diverse teams, ensuring efficient development and deployment pipelines.

What excites me most about this role is the opportunity to innovate and build demos and proof-of-concept projects in communication services, an area I find deeply intriguing. My strong curiosity for disruptive technologies, combined with my collaborative and adaptable mindset, aligns with Ericsson's vision of fostering innovation and diversity.

I am eager to bring my technical skills, curiosity, and dedication to Ericsson's dynamic team, contributing to the monetization of 5G and the development of next-generation communication services. I would welcome the opportunity to discuss how my background and enthusiasm can add value to your projects.

Thank you for considering my application.

Sincerely,
Vraj Shah
