Hiring Team
Techo-Bloc

Subject: Application for **Front-End Developer Intern**

Dear Hiring Team,

Crafting seamless and engaging digital experiences has always been a passion of mine, and the opportunity to contribute to Techo-Bloc's innovative web presence excites me. With a strong foundation in front-end development and a keen eye for UI/UX optimization, I am eager to apply my skills as a **Front-End Developer Intern** to enhance Techo-Bloc's online platforms.

In my previous role at **Simform Solutions**, I developed and optimized web applications using **ReactJS, HTML5, CSS3, and JavaScript**, implementing performance enhancements that improved page load times by **40%**. I also collaborated closely with UX designers to translate wireframes into interactive, accessible, and responsive interfaces. Additionally, I built reusable UI components to streamline development workflows, a skill that directly aligns with Techo-Bloc's goal of creating a **widget library** for future enhancements.

Beyond technical expertise, I bring a problem-solving mindset and a strong ability to work in cross-functional teams, having integrated RESTful APIs, optimized web performance, and ensured WCAG-compliant accessibility in previous projects. My dedication to **clean, maintainable code** and continuous learning makes me an adaptable and effective contributor.

Techo-Bloc's commitment to excellence and innovation resonates with me, and I am eager to collaborate with your **E-commerce and UX/UI teams** to deliver engaging and high-performing web solutions. I welcome the opportunity to further discuss how my skills align with your goals.

Thank you for your time and consideration. I look forward to the possibility of contributing to Techo-Bloc's success.

Sincerely,
Vraj Shah
