Hiring Team

Osler

Subject: Application for **Junior Web Developer (Co-op) Position**

Dear Hiring Team,

Intrigued by Osler's commitment to leveraging technology to drive business solutions, I am excited to apply for the Junior Web Developer (Co-op) position. With hands-on experience in **ReactJS, ASP.NET, SQL Server, and Microsoft 365**, I am eager to contribute to your dynamic web services portfolio while further refining my expertise in enterprise solutions.

At Simform Solutions, I led the **development of dynamic web applications** using ReactJS and ASP.NET, optimizing performance by **35%** and enhancing user engagement. My experience working with **SharePoint, PowerShell scripting, and SQL Server** has equipped me with the ability to design, develop, and integrate robust enterprise web solutions. Additionally, my background in **authentication models and access control mechanisms** aligns with the security-first approach needed for legal and business applications.

Beyond technical expertise, I thrive in **cross-functional collaboration** and possess strong analytical problem-solving skills. My previous roles have required direct engagement with stakeholders to **analyse business requirements**, develop scalable solutions, and ensure seamless deployment, making me a strong fit for Osler's environment.

I look forward to the opportunity to bring my skills to your team and contribute to innovative web development projects. Please find my resume attached for your review. I welcome the chance to discuss how my experience aligns with Osler's needs.

Sincerely,

Vraj Shah
