Hiring Team
Sun Life

Subject: Application for **Student, Associate Software Engineer (Summer 2025)**

Dear Hiring Team,

Curiosity, innovation, and problem-solving have been the driving forces behind my journey as a software engineer. With a background in **mobile and full-stack development** and a passion for building scalable, high-performing applications, I am excited about the opportunity to contribute to Sun Life as an **Associate Software Engineer Intern** for Summer 2025.

At **Simform Solutions**, I developed and optimized cross-platform mobile applications, improving performance by **40%** and enhancing user engagement by **25%** through efficient API calls and architecture patterns. My experience integrating **third-party SDKs (Stripe, PayPal, IoT)** and utilizing **Firebase Crashlytics** to reduce app crash rates by **35%** demonstrates my ability to build and maintain high-quality applications. Additionally, I actively contributed to **open-source projects**, reinforcing my commitment to innovation and collaboration.

Currently pursuing my **Master of Applied Computer Science** at **Dalhousie University**, I am deepening my expertise in cloud technologies, AI-driven mobile enhancements, and agile software development. My coursework and hands-on experience with **AWS Lambda, Kubernetes, and CI/CD pipelines** have strengthened my ability to design and deploy scalable solutions. I thrive in **agile teams**, effectively communicating with cross-functional members to deliver results that align with business objectives.

Sun Life's commitment to **innovation and technology-driven solutions** resonates with my aspirations to develop impactful software that enhances user experiences. I am eager to bring my **problem-solving mindset, technical expertise, and adaptability** to your team. I would love the opportunity to discuss how my skills align with the goals of Sun Life.

Thank you for your time and consideration. I look forward to the possibility of contributing to your team and would welcome the opportunity to connect.

Sincerely,
Vraj Shah
